

BancTec Recognized as Global Top Four Accounts Payable Outsourcing Vendor

09.16.2008 — Dallas, Texas

BancTec, a global provider of advanced, high-volume document and payment processing solutions and services, has been recognized as one of the top four global accounts payable outsourcing providers in Brown & Wilson's 2008 Black Book of Outsourcing. In addition to its number four overall ranking, BancTec ranked second or third in five of the study's 18 measurement categories.

"We're pleased to have ranked in the top 5 in categories such as client relationships and cultural fit, trust, customization, reliability and viability on a global basis," said Paul Diegelman, divisional vice president for BancTec's Finance and Accounting Business Process Outsourcing (F&A BPO) practice. "With many organizations focusing on and implementing accounts payable outsourcing for the first time, these characteristics are especially important."

"BancTec has built an outstanding global BPO practice, with accounts payable outsourcing as one of our core F&A offerings," said Jeff Brown, vice president of BancTec's business process outsourcing practice in the Americas. "Our F&A offerings have been well received, and complement our corporate and healthcare revenue cycle management and managed services capabilities."

Brown-Wilson Group annually evaluates leading global outsourcing service providers across 18 operational excellence key performance indicators, completely from the perspective of the client experience. Independent and unbiased from vendor influence, more than 400,000 global outsourcing users are invited to participate in the study. As a result, leaders in the accounts payable outsourcing study have demonstrated the expertise of market focus and customer centricity.

BancTec has built a global BPO practice with facilities throughout North America and Europe. The company is recognized for its expertise in remittance processing, revenue cycle management, and transactional content management, which help many of the world's largest organizations improve internal business processes while also reducing costs.
