

A Comprehensive Evaluation of the Mobile Payment Markets: Analyze Strategies & Forecasts from 2008 to 2013

September 23, 2008

DUBLIN, Ireland--(AllPayNews.com)--Research and Markets (http://www.researchandmarkets.com/research/771252/mobile_payment_mar) has announced the addition of the "Mobile Payment Markets: Strategies & Forecasts 2008 - 2013" report to their offering.

This report provides a complete view of the mobile opportunity for digital and physical goods purchases, contactless NFC and national and international money transfers and remittances.

It pulls together the 3 component reports in the mobile payments series and compares the size and growth of the entire mobile payments market across the 8 key regions projecting total gross transaction values for each of the segments as well as total mobile subscribers by region up until 2013.

Key Questions the report answers:

- What are the key growth segments of the mobile payments market?
- How is the mobile payments market structured?
- What is the size of the overall mobile payments market?
- Where is the mobile payments market headed in future – what are the top trends?
- What are the constraints on the growth of the mobile payments market?

Key Topics Covered:

- Market Segmentation
- Mobile Commerce & Mobile Payments Market Trends
- Mobile Payments: Market Structure
- Leading Mobile Payments Vendors

- Leading Mobile Payments Service Providers
- Market Forecasts
- Standards & Forums
- List of Forecasts

All forecasts are for 2008-2013, except where stated.

- Digital & Physical Goods
- International & National Mobile Money Transfers & Remittances
- Near Field Communication Transactions
- Total Mobile Payments Market Transactions
- Historical Data Points
- Global Forecasts
