## Another Major Financial Institution Adds Tritek Technologies "Leading Edge" Mail Processing Solutions and Equipment

WILMINGTON, DE--(Marketwire - September 25, 2008) - [Tritek Technologies](#), Inc. has automated inbound [mail processing](#) at the New York City offices of one of the world's largest financial institutions.

Tritek Technologies is a solutions provider in [postal processing automation](#). Tritek's advanced equipment processes all types of inbound mail and records, tracks and stores mail piece data for advanced [sorting processing](#) and digital mail delivery.

The Tritek engineering group has over 20 years of experience deploying and designing [mail sorting equipment](#) and is one of the most technologically advanced companies in the mailing industry today. Tritek has many [issued United States patents](#) in this field with others pending.

Cambridge Corporate Services, a mailroom and staffing company, was contracted to provide an automation solution for one of their largest New York City financial customers. Cambridge selected Tritek Technologies because of Tritek's unique, unparalleled inbound, outbound and return mail processing capabilities with a proven track record at other major financial corporations such as Citigroup, Bank of New York Mellon and JP Morgan Chase.

"Cambridge has always been considered an extremely efficient, forward-looking company," said Bill Kelly, Executive Vice President of Cambridge Corporate Services. "The integration of Tritek automated inbound technology brings advanced tracking, first touch data collection and lifecycle management right to the mail center."

Founded in 1988, Cambridge has decades of experience in managing and facilitating mailroom operations. Cambridge is a leading service provider to an elite group of clients in the banking, finance, insurance, legal and entertainment industries.

Headquartered in Wilmington, DE, Trittek was founded in 1988 and has a distinguished customer base that includes Financial Institutions, Fortune 500 Companies and Government installations.

"The installation of Trittek's mail processing technology and equipment at the corporate mail center for this premier financial institution is another example of how Trittek offers complete solutions for inbound and outbound mail processing," stated Jim Malatesta, President / CEO of Trittek.
